WHAT NEXT - THE WAY AHEAD

Citizen's Action Plan for America

Purpose: To put constitutional government back into the hands of “We the People”

How? Citizen involvement at the Local, State, and National levels-emphasis on local grass roots organizations to get involved and then roll these actions into actions at state and federal levels

Education: Citizens and parents should control schools; not boards, administrators, or unions

- Remove critical race theory and 1619 project teaching; insist on fact-based teaching of climate change and our national history; remove all gender identity/neutral teaching
- Elect those with traditional family based values to school boards
- Attend and speak at school board, PTA, and other school meetings
- Volunteer to assist teachers in class; attend classes; review the curriculum ; monitor pedagogy
- Allow voluntary prayer in school
- Get civics back into the classroom along with math and science; require higher academic standards

Political: Get involved with local government

- Elect those with traditional values as county commissioners, clerks, and serve on county committees
- Elect those with traditional values to serve as mayors, city council members, and various committees at the town and city levels
- Attend meetings at county, town, and city levels and speak out
- Require the Pledge of Allegiance to open all county, town, and city meetings
- Elections: volunteer to be a poll worker and/or watcher
- Stay informed on legislative actions at the state and national level; phone, write letters, emails, etc., to elected Officials—ensure they know how you want them to vote—hold them accountable
- Present your concerns to your congressional and senate local district representatives
- Elect those with conservative values to party precinct positions to represent your local interests at the state and federal level
- Contribute to campaigns—money and/or volunteer work

Law enforcement: Insist on the fair, equal, and consistent enforcement of the law; no double standards

- Elect sheriffs and DAs who will constitutionally enforce the rule of law and will resist state and federal mandates infringing on Constitutional Rights of citizens
- Fully support local law enforcement budgets; oppose defunding the police
- Thank your law enforcement officials both verbally and in writing for their dedicated service

Media: Write to local newspapers, radio, and TV stations with facts; correct media misinformation

Organize: Citizens within church groups, among church groups, and outside church groups
Attend peaceful demonstrations on key issues like schools, open borders, election integrity, 1st and 2d Amendment Rights, etc.
