

## ***Stand Together Against Racism and Radicalism in the Services (STARRS)***

STARRS is an organization of US military veterans and citizens who educate our fellow Americans on the dangers of the racist, radical and divisive CRT/DEI/Woke ideology infiltrating our military. We work toward eliminating these divisive influences to maintain a unified and cohesive fighting force, one based on MERIT and ability, not appearances or labels.

### **WHAT STARRS DOES:**

- We STAND against the CRT/DEI/Woke agenda in the US military and its Service Academies
- We educate on the dangers of this racist and radical ideology in the military
- We monitor the CRT/DEI/Woke agenda in the DoD through our website (STARRS.US) & social media (@StarrsMission)
- We seek the truth of what is happening in the military through FOIAs
- We hold accountable the Academies and Services when they push this radical agenda
- We speak Truth to Power . . . Hard Truths
- We write articles and policy papers alerting people to this harmful agenda
- We work with Congress and Panels to provide knowledge and ideas to combat the problem
- We help like-minded organizations and media to get out the truth
- We provide a network and listening ear to cadets, service members, veterans and families who are sick of this ideology being forced on them and worried about the future of our country. If you feel this way too, *know that you are not alone!*

**STARRS.US**

*Wake Up, Stand Up, Speak Up  
and Never Give Up!*

**WHAT STARRS IS FOR:**

- Maximizing military readiness and teambuilding
- Focusing on warfighting with high standards enforced
- Equal opportunity for all—no discrimination
- Meritocracy rewarding performance, character and integrity
- Battle-Proven Unity and Assimilation is our Strength

**WHAT STARRS IS AGAINST:**

- Marxist-rooted Critical Race Theory (CRT)/Diversity, Equity & Inclusion (DEI) in the military which destroys unit cohesion and pits one group against another
- “Diversity & Inclusion” race and gender selection criteria vs meritocracy
- “Equity” meaning equal outcomes based on racial or gender quotas
- Politically correct woke policies in DoD that lower standards

**TWO STRATEGIC GOALS:**

1. Eliminate all CRT and DEI indoctrination training and programs in the Department of Defense
2. Eliminate the mandatory COVID vaccination policy (accomplished); Seek remedies for those harmed
