

STARRS

RESTORING THE AMERICAN CREED AND THE WARRIOR ETHOS

Since 2020, STARRS has fought the divisive and radical Critical Race Theory (CRT) which manifests in the deceptive-sounding Diversity, Equity & Inclusion (DEI)/Woke agenda in the military. Now, the Commander-in-Chief and Secretary of Defense have issued orders banning this anti-American ideology. But is it really gone?

No. Unfortunately, this dangerous woke mind virus has deeply infected the US military and other parts of our culture through years of indoctrination. This dangerous Marxist-rooted belief system of pitting people against each other in order to foment division cannot be removed overnight.

The fight is not over! STARRS, an organization of US military veterans and citizens, works toward exposing and eliminating these divisive influences and educating people on understanding the differences between the American political creed of our founding documents versus an ideology that seeks to negate and destroy those principles.

We also promote the return to a warfighter ethos in the armed forces of meritocracy, lethality, readiness, standards, accountability and excellence.

Our Mission Objectives include:

- Working with the Pentagon and continuing being a sentinel where we observe, analyze, and report on what is happening regarding the presidential orders to eradicate CRT/DEI indoctrination from the military.
- Continuing our general counsel's efforts to assist scores of veterans and service members harmed by covid vaccination mandates or their resistance to CRT/DEI indoctrination.
- Continuing with an expanded educational mission to educate the general public on the great dangers to our Nation stemming from the Marxist roots of CRT/DEI.
- Working to educate Congress to codify the Executive Orders and DOD orders into law to prevent the ideology from coming back.

Do you want your military back? Do you want your country free from radical forces? Do you want common sense back?

Support the mission of STARRS.

STARRS

WHAT STARRS DOES:

- Promotes the return of meritocracy and a warrior ethos to our military and service academies.
- Informs and educates the public and members of Congress of the negative effects of CRT/DEI on our military's ability to achieve a warrior culture of lethality and to deter and wage war effectively.
- Educates the House and Senate about codifying into law the elimination of CRT/DEI.
- Provides legal assistance for those in the military harmed by the DEI and vaccine mandates imposed on members of our Armed Forces.
- Runs a comprehensive database website (STARRS.US) of these issues where we research, monitor, collect articles, documents, reports, orders, and more; issues a newsletter reporting on the latest developments.
- Conducts educational outreach across the country via our STARRS volunteer Ambassador program, available to speak at venues.
- Submits Freedom of Information Act requests to find the truth, exposes wrongdoing and holds the military accountable.
- Writes and publishes articles to educate the public on issues.
- Partners with other like-minded organizations to force-multiply our efforts in combatting the CRT/DEI ideology.

VISIT OUR WEBSITE STARRS.US which has over 3,000 posts of information regarding the problem of the CRT/DEI/ Woke agenda push in the military and service academies, including latest news articles, articles written by STARRS, orders/memos, court documents, reports, videos, resources and more.
